PROFILE

I aim to be a Junior Software Developer that designs and develops the backend and frontend of Software and Web Applications, with the goal of being a Full Stack developer. I have experience in the Angular Framework and Typescript. I have previos exposure with Java when I was enrolled for my Diploma.

WORK HISTORY

Kernet (Pty) Ltd · 16 January 2023 - Present
Role Software Development Internship for in-house software and software as a Service for clients using Angular, Vue and Tailwindcss.

Hermanus Parkrun
I was a Path Official who helped ensure participants were on path.

EDUCATION

Cape Peninsula University of Technology · 2019 – 2023

Curro Hermanus Highschool · 2012 – 2018

QUALIFICATION

Diploma: ICT in Applications Development
Grade 12 National Senior Certificate IEB

PROJECTS UNDER KERNET

- **Recruitment Web Application**
  An in-house web application in Angular used by recruiters to recruit newly graduates stored and verified on Kernet Database. I was tasked to help with bug fixes for the User interface and make visual changes where applicable.
- **Kernet Landing page website**
  I was tasked to taking the desktop design and converting it to be viewed on mobile. I created design drafts on Figma.
- **Thando Mgqolozana website**
  I was tasked with creating a design draft for the mobile User Interface for the website on Figma.
- **Funeral Insurance Web Application**
  I am part of a team helping to develop a web application for a client using Angular. I helped to design and coded in components like dialog windows with input fields and functions to save data into a Firebase datastore.
